

Project cargo handling has been a part of our everyday services for several years.

PROJECT CARGO TRANSPORT AND HANDLING IN FINLAND

SA-TU Logistics offers transport and handling services of oversized and heavy items in Finland. The service also includes export and import customs declaration.

Cargo handling:

- ★ trucking of oversized and heavy items in Finland
- ★ loading and unloading special cargo
- ★ flat rack, open top and other special shipping units
- ★ own special cargo handling equipment and forklift trucks
- ★ transshipment and cross docking
- ★ container trucking
